

Job Title: Systems Assembly Technician
Department: Production
Sub Department: N/A
Immediate Supervisor: Production Manager
Status: Non-Exempt; Full Time
Location: Meridian, Idaho

JOB SUMMARY

Utilize engineering blueprints and specifications to create plumbing and electrical subcomponents, perform interface plumbing and wiring, final assembly, and system integration.

DUTIES & RESPONSIBILITIES

1. Accurately interpret engineering drawings and perform plumbing, wiring, and assembly to meet functionality and specification requirements.
2. Utilize a Personal Computer and shop floor control software to accurately track job labor and material usage.
3. Trouble-shoot components at start up and maintain a low failure rate.
4. Competently use measuring instruments and diagnostic devices and contribute to JST's quality program by following quality procedures.
5. Understand and follow company procedures and act in a safe manner in a manufacturing environment.
6. Maintain stewardship of equipment and contribute to the maintenance and cleanliness of the shop and equipment.
7. Perform miscellaneous tasks as required to support manufacturing, engineering, quality, and quoting departments.
8. Contribute to team effort by achieving results. Work cooperatively with team members and assist engineering with design for manufacturability.
9. Communicate design constraints and work within the team to achieve solutions.
10. Responsible for other duties and tasks as assigned and, in some circumstances, may be completely unrelated to this position.

JOB REQUIREMENTS, SKILLS, AND EXPERIENCES

- Able to read assembly blueprints as well as plumbing and electrical schematics.
- Able to perform interface plumbing and wiring of components to meet specifications.
- Perform sub-assembly of units and components including pumps, flowmeters, manifolds, etc.
- Perform point to point and interface plumbing for systems integration.
- Perform sub-assembly of boards and components including motors, pumps, drives, controllers, etc.
- Perform point to point and interface wiring for systems integration.

- Able to use process pipe welding equipment including, butt-fusion IR welder, socket welder, orbital welder.
- Able to use hand and power tools.
- Maintains a clean work area both inside and outside equipment.
- Technical degree preferred or equivalent experience.

TRANSFERRABLE SKILLS/EXPERIENCE

- Mechanical skills working on complex systems such as: automotive mechanics, HVAC systems, etc.
- Electrical and Plumbing experience
- Mechanical Maintenance

WORK ENVIRONMENT AND EMPLOYEE EXPECTATIONS

- Employees are expected to support the Company's business culture and values by demonstrating integrity, simplicity, trust, respect, and shared risk as well as by contributing at optimum levels toward the success of the company.
- Able to safely lift and carry, push or pull objects up to 50lbs.
- Able to walk, stand and work on feet for the duration of shift.
- Able to climb, balance, stoop, kneel, crouch, reach with hands and arms, grasp, handle and operate hand/power tools or controls.

COMPANY SUMMARY

JST is a leading expert in wet bench design and a trusted global provider of wet process and precision cleaning technology solutions for the semiconductor, biomedical, and other clean industries. Our customers rely on us to solve their most complex manufacturing process challenges. With in-house engineering teams and full plastic and metal fabrication capabilities, JST delivers complete design-to-fabrication solutions for all wet processing applications. We are driven by teamwork, customer focus, integrity, and relentless innovation — committed to providing high-quality, cost-effective, and safe solutions that improve our customers' wet chemistry processes.

When you join the JST team, you become part of a group of specialists in wet bench design, manufacturing and customer service. From concept to completion, we engineer, design, manufacture, and install tailored solutions to meet cleanroom processing needs across the globe.

CORE VALUES:

INTEGRITY

We consistently operate at the highest ethical and moral standards.

SIMPLICITY

Our 80/20 Front-to-Back Process helps us think and act simply – it creates an intense focus on our most profitable products and customers.

TRUST

We trust our people to operate with their best efforts and in the best interests of the company.

RESPECT

We treat everyone as we expect to be treated and value the diversity of perspectives, backgrounds, and experiences of all colleagues.

SHARED RISK

We celebrate our successes together and take responsibility for our mistakes and challenges as a team.
