

JST MANUFACTURING JOB DESCRIPTION

Job Title: Quality Assurance Technician (QC)

Department: Quality Assurance

Immediate Supervisor: Quality Assurance Director

FLSA Status: Non-Exempt

COMPANY SUMMARY

JST Manufacturing is the expert in wet bench design and manufacturer and go-to international wet process and precision cleaning technology solutions manufacturer in the semiconductor, biomedical, food processing, and other clean industries. Our customers regard us as the company that can solve their difficult manufacturing process problems. Utilizing an onsite electrical and mechanical engineering staff, and a full plastic and metal fabrication facility, JST Manufacturing can provide both design and fabrication solutions for all of your wet processing processes. With teamwork, integrity, good judgment, innovation, and respect, we are committed to improving our customer's cleaning and handling challenges with quality, cost-efficient, and safe solutions.

By joining the JST Manufacturing, Inc. team you join a team of experts in wet bench design and manufacturing. From start to finish, we can engineer & design, then manufacture & install the right solution for any cleanroom need around the world.

JOB SUMMARY

The Quality Control Technician I is a highly motivated and detailed oriented person responsible for inspecting, testing, and measuring a variety of plastic and metal components using a variety of standard tests and metrology tooling to determine conformance to JST standards, engineering specifications and customer specifications and expectations.

DUTIES & RESPONSIBILITIES

- 1) Always maintain a clean and safe working environment.
- 2) Represent the company in a professional manner to the public, customers, and vendors.
- 3) Maintain trusting relationships with customers and fellow employees.
- 4) Check, inspect and measure components to ensure they are consistent with engineering drawings (Blueprints) and customer specifications and requirements.
- 5) Follow inspection procedures for part testing requirements.
- 6) Follow the QA Director's instructions which may include duties outside of the quality department as needed.
- 7) Perform non-destructive and destructive tests, according to written procedures, on parts to identify conformity to specified design requirements such as water leak check and spark testing.
- 8) Accept or reject finished products and discuss inspection results with the production team.

JOB REQUIREMENTS

- High School Diploma
- At least 6 months of applied, technical or industrial metrology experience required or equivalent education. This could include time spent manufacturing as a machinist, precision welder, finish carpenter or other trade.
- Strong desire to learn.
- Strong problem-solving skills
- Strong attention to detail
- Ability to work overtime as needed.
- Well organized and can self-manage time and determine priorities in a fast-paced environment.
- Integrity is required as decisions made have an effect on employee and customer safety and satisfaction.
- Able to bend and squat to check parts is required as position occasionally requires crawling on the ground to inspect larger parts.
- Able to walk, stand and work on feet for the duration of shift.
- Able to climb, balance, stoop, kneel, crouch, reach with hands and arms, grasp, handle and operate hand/power tools or controls.
- Effective verbal and written communication skills
- The ability to visually check tiny features of small parts.
- The ability to perform basic computer functions.

WORK ENVIRONMENT AND EMPLOYEE EXPECTATIONS

- Employees are expected to support the Company's business culture and values by demonstrating teamwork, integrity, good judgement, respect, innovation, and

communication as well as by contributing at optimum levels toward the success of the company.

- Able to safely lift and carry, push or pull objects up to 50lbs.
- Able to walk, stand and work on feet for the duration of shift.
- Able to climb, balance, stoop, kneel, crouch, reach with hands and arms, grasp, handle and operate hand/power tools or controls.

APPLICATION PROCESS

You can download our employment application from [our website](#). Employment applications and resumes are accepted through the following venues:
